Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Instant invention drawn to a computer-implemented method for word sense disambiguation is allowable over the prior art of record for including the following nonobvious improvement in conjunction with the remaining claim limitations:

discerning an implicit position of a sense of the subject term, each implicit position corresponding to at least one occurrence of a subject term

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Amendment

Examiner initiated an interview with Mr. Thomas C. Fiala on June 20, 2005 to discuss the potential amendment of instant application for the purpose of allowing the application, the amendment to the record occurring by means of an examiner's amendment. Authorization for the following examiner's amendment was given in above telephone interview with Mr Thomas Fiala.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

Art Unit: 2161

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

With regard to the claims of record as of 8/21/2001, please make the following amendments:

Claim 4:

line 4, insert -- computer-implemented - - before "method"

line 6, insert -- computer-implemented - - before "method"

Claim 10:

line 4, insert -- computer-implemented - - before "method"

line 6, insert -- computer-implemented - - before "method"

Claims 1-3, 5-9 and 12-14

Please cancel claims 1-3, 5-9 and 12-14 because above claims include selected limitations from the allowed claims and therefore, they are too broad when the claim language its broadest reasonable interpretation.
